Problem – Solution Fit :

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ Understand the existing situation in order to improve it for your target group.

Conclusion:

The project "Supply Leftover Food to Poor Utilizing Salesforce" addresses a critical social and environmental challenge by connecting food donors with those in need. By streamlining the surplus food collection and distribution process, we significantly reduce food waste while addressing hunger in communities. This solution not only provides efficiency and transparency but also creates accountability through real-time tracking and automated coordination.

With the successful implementation of Salesforce automation, intelligent matching algorithms, and mobile accessibility, this project establishes a scalable foundation for building a compassionate food-sharing ecosystem. The platform transforms the way surplus food is managed—from waste to a valuable resource that feeds the hungry, benefits donors through social responsibility, and empowers volunteers to make meaningful contributions to society.
